EANT PHONE SHAN

Aspiring Cloud Engineer · Computer Science Student

PROFILE

BSc (Hons) Computer Science student at Asia Pacific University of Technology & Innovation, dual award with De Montfort University, UK, working toward a career in cloud engineering. I build team projects across UX design, SQL databases and networking, and I am training on AWS through Coursera. As the co-founder of a clothing brand, I gained hands-on leadership, sales and supplier management experience. Seeking an internship in cloud or robotics technology.

EDUCATION

BSc (Hons) Computer Science — Sep 2025 – Sep 2027 (expected)
Asia Pacific University of Technology & Innovation (APU), Kuala Lumpur · Dual award with De Montfort University (DMU), Leicester, UK

General Educational Development (GED) — Jan 2025
Myanmar Search International (MSI)

Duolingo English Test · Score 100 — Jan 2025

EXPERIENCE

Co-founder · They Ain't Us — Jun 2024 – Jul 2024
Streetwear brand, Myanmar

- Co-founded a clothing brand with one partner and designed the collection: black and white type tees and a skull graphic line.
- Found and worked with a garment factory to produce our first run, and managed the production payment of 200,000 Ks.
- Sold through our own Facebook page and made a profit of 400,000 Ks in the first month.
- Closed the brand on good terms when I moved abroad for university.

Volunteer · Cursor x Anthropic Hackathon 2025 — Dec 2025
Hackerdorm · Certificate of Appreciation

PROJECTS

Gold Shop App — In progress · team of 3

- UX design of the app's screens and flow, together with a teammate.
- Designed the SQL database behind the shop's data.
- Set up the network, connecting devices over Wi-Fi to a host, with a move to the cloud planned next.

First Aid for Kids — In progress · APU project
An e-commerce style app that teaches children basic first aid through lessons and videos.

Game Voice Acting — Voice
Recorded background crowd voices used in scenes of a game project.
